*Abstract:*

FERC-65 (Notification of Holding Company Status)

The FERC-65 is a one-time informational filing outlined in the Commission's regulations at 18 Code of Federal Regulations (CFR) 366.4. The FERC-65 must be submitted within 30 days of becoming a holding company. The Commission does not require the information to be reported in a specific format. The filing consists of the name of the holding company, the name of public utilities, the name of natural gas companies in the holding company system, and the names of service companies. The Commission requires the filing to include the names of special-purpose subsidiaries (which provide non-power goods and services) and the names of all affiliates and subsidiaries (and their corporate interrelationship) to each other. Filings may be submitted in hardcopy or electronically through the Commission's eFiling system.

FERC-65A (Exemption Notification of Holding Company Status)

While noting the previously outlined requirements of the FERC-65, the Commission has allowed for an exemption from the requirement of providing the Commission with a FERC-65 if the books, accounts, memoranda, and other records of any person are not relevant to the jurisdictional rates of a public utility or natural gas company; or if any class of transactions is not relevant to the jurisdictional rates of a public utility or natural gas company. Companies seeking this exemption file the FERC-65A. Commission regulations within 18 CFR 366.3 describe the criteria in more specificity.

FERC-65B (Waiver Notification of Holding Company Status)

Entities may file a FERC-65B pursuant to the notification procedures contained in 18 CFR 366.4 to obtain a waiver from the requirement of providing the Commission with a FERC-65 if they meet the requirements in 18 CFR 366.3(c). Specifically, the Commission waives the requirement of providing it with a FERC 65 for any holding company with respect to one or more of the following: (1) single-state holding company systems; (2) holding companies that own generating facilities that total 100 MW or less in size and are used fundamentally for their own load or for sales to affiliated end-users; or (3) investors in independent transmission-only companies. Filings may be made in hardcopy or electronically through the Commission's website.

*Type of Respondents:* Holding company, Public utilities, natural gas companies, service companies.

*Estimate of Annual Burden*<sup>1</sup>: The Commission estimates the total Public Reporting Burden for this information collection as:
